

DIRECTVIEW LED

Minimalistic Design and
Elegantly Functional.

G2MEDIa designs striking visual displays with state of the art craftsmanship to create some of the worlds largest consumer electronic displays. This company was founded in 2015 by Frank Galgano and Louis Galgano. With a History steeped in Audio Visual systems installation and integration, working with technology giant multinationals and digital TV pioneers Grundig.

In 2015 after almost 30 years in the Sale, Design and Installation of Audio Visual equipment and systems, the siblings joined forces to create G2MEDIa, an LED sign and screen manufacturer.

With a Manufacturing Facility based in Mitcham Victoria, Australia. G2MEDIa commenced its business creating programmable outdoor signage for business and government, increasing both the screen quality and size as the years progressed.

In 2019 after 4 years and hundreds of screens produced, they decide to create their first fully portable 102" HUGE LED Screen, Lightweight at only 88kgs this Display monitor could be easily moved as required.

That same year also saw the team install an outdoor LED TV in a home in Sorrento.

In turn these products began the wheels in motion to creating what is available today in the pages of this brochure.

Brighter than any OLED or regular Flat TV, with blacks so pure and an Unmatched dynamic range.

Our range of captivating screens are a game purists fantasy and enhances any sports and movie lovers experience at home any time of the day or night.

HUMBLE
BEGINNINGS

AUSTRALIA'S LARGEST HD WIDESCREEN TV

G2MEDIa G116FHD12

Introducing the grandest Full High Definition true LED Television, exhibiting the purest black ever produced by eliminating the back light that is required on most conventional LED TV..

This screen produces its light individually pixel by pixel, ensuring true contrast definition without any light bleeding.

Stunning 1200nits brightness for perfect viewing experiences in even brightest daylight conditions, on-board Free-View TV tuner with one touch Netflix or Stan access. Connected to an optional High End Sound-Bar and Sub or 5.1 surround sound system for total quality sound.

Lean back in your favorite Lounge and enjoy works of art or family photos when in standby.

Controlled by your phone, select watch TV and enjoy a viewing experience that, up to now, was simply unavailable outside a private movie theatre in a remote corner of your mansion. Movie screen-sized indoor TV is now available for a wide variety of room configurations. G2MEDIa offers the complete total quality indoor TV technology package in 5 screen diagonals, from the gigantic 217 to the still huge 116.

TV RANGE

HUGE TELEVISION SIZES: INDOOR 217/158/116 OUTDOOR 173/151

Unsurpassed picture quality and contrast ratio.

Using the Latest SMD-LED technology provides the G2 series TV range with an unparalleled color spectrum, beyond the performance of standard LCD TV screens. Black LEDs produce a superior contrast ratio of > 5000 : 1 and, if needed, total black.

Edgeless and seamless 4k Modular TV.

All our TVs come in the industry standard 16:9 aspect ratio. Ensuring true widescreen visual resolution. Its awe inspiring size, brilliant design and precision "seamless LED" engineering set these displays a world apart from conventional large-screen TVs, creating a vastly improved viewing experience and reaching beyond mere TV into the realm of art.

Vivid Colors and Stunning Images

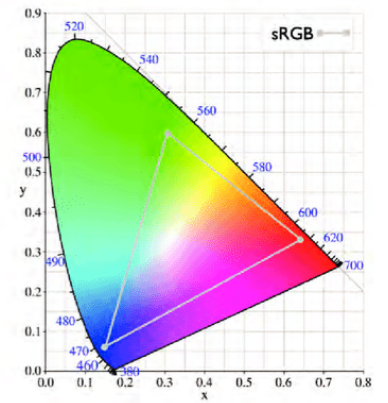

With 120% sRGB color accuracy, an ultra-fast 3,840Hz refresh rate, 1200nit high brightness, and greater 4000:1 contrast ratio, these displays deliver jaw-dropping, lifelike color and stunning images. These screens provide a unique, cinema-like experience in absolutely all ambient light conditions. Enjoy picture-perfect entertainment even in glaring sunlight flooding your living room.

HDR and 18-bit grayscale processing power.

Highly saturated colors and a bottomless, deep black are benchmarks of superior picture quality and picture TVs use state of the art HDR processing, supported by 18-bit grayscale processing, to create a truly overwhelming viewing experience.

A 160° viewing angle

Without any brightness drop-offs or color shifts is exceptionally rare, even in much smaller screens. This performance places the G2 series in a whole new category.
